HS-5050 - HIGH PRESSURE SAFETY

Course Outline (4 hours)

Gas Relationships 35 minutes

**High Pressure Fittings
and Equipment 45 minutes**

~ Break ~

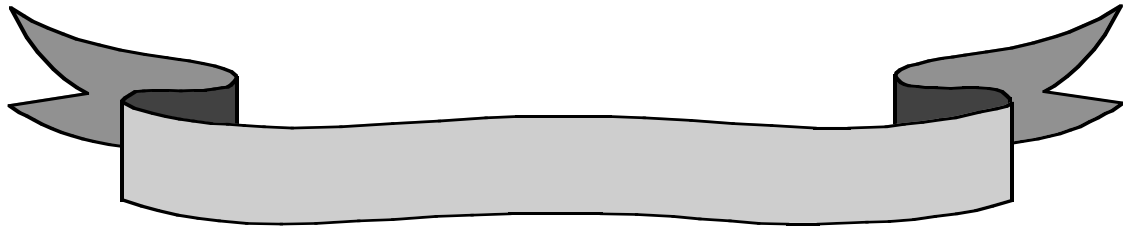

Pumps and Compressors 30 minutes

High Pressure System Design 15 minutes

~ Break ~

High Pressure Hydrogen Safety 30 minutes

**Course Evaluation, Discussion
and Quiz**

Pressure Safety Training Objective

***To provide you with
the necessary classroom training
so that
with required practical experience
you will be able to work
(or design)
more safely with pressure***
